

for drivers convicted of DWI is administered along with other license sanctions (e.g., license suspension). Participation in the State's MSAAP does not result in less severe sentencing. This combination of substance abuse assessment and treatment with strict license sanctions is considered the preferred approach to administering such a program; therefore, it is particularly important to determine the effectiveness of such a program.

3. During 1988 and 1989, North Carolina pilot-tested the use of the MSAAP for all first offenders in 10 counties. Consequently, there has been sufficient time since then to evaluate the long-term effect of the program on the driving behavior of program participants.

4. The Injury Control Program in the NCDEHNR was recently involved in a study to assess the risk of dying in alcohol-related motor vehicle crashes among drivers who were arrested for DWI. The evaluation of the State's MSAAP will build on this research by assessing the effectiveness of mandatory substance abuse assessment and treatment in reducing the risk of rearrest for DWI.

5. NCDEHNR works closely with the State's Highway Safety Research Center (HSRC). The HSRC retains copies of the State's driver history files—which will be used for this evaluation—and provides the programming and technical assistance needed to work with the State's driver history files.

Executive Order 12372 Review

This program is subject to Intergovernmental Review of Federal Programs as governed by Executive Order (E.O.) 12372. E.O. 12372 sets up a system for State and local government review of proposed Federal assistance applications. The applicant should contact their State Single Point of Contact (SPOC) as early as possible to alert them to the prospective application and receive any necessary instructions on the State process. If the SPOC has any State process recommendations on the application, they should be sent to Henry S. Cassell, III, Grants Management Officer, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control and Prevention (CDC), 255 East Paces Ferry Road, NE., Room 300, Mailstop E-13, Atlanta, GA 30305, no later than 60 days after the application deadline date. The Announcement Number and Program Title should be referenced on the document. The granting agency does not guarantee to "accommodate or explain" for State

process recommendations it receives after that date.

Public Health System Reporting Requirements

This program is not subject to the Public Health System Reporting Requirements.

Catalog of Federal Domestic Assistance Number

The Catalog of Federal Domestic Assistance Number is 93.136.

Where To Obtain Additional Information

If you are interested in obtaining additional information regarding this project, please refer to Announcement 551 and contact Adrienne Brown, Grants Management Specialist, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control and Prevention (CDC), 255 E. Paces Ferry Road, NE., Mailstop E-13, Atlanta, GA 30305, telephone (404) 842-6634.

A copy of "Healthy People 2000" (Full Report; Stock No. 017-001-00474-0) or "Healthy People 2000" (Summary Report; Stock No. 017-001-00473-1) referenced in the SUMMARY may be obtained through the Superintendent of Documents, Government Printing Office, Washington, DC 20402-9325, telephone (202) 512-1800.

Dated: June 1, 1995.

Project Grant to Assess Tuberculosis Control Efforts on College and University Campuses in the United States

Summary

The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 1995 project grant funds for a sole source grant to the American College Health Association (ACHA). Approximately \$60,000 is available in FY 1995 to support this project. It is expected the award will begin on or about September 30, 1995, for a 12-month budget and project period. The funding estimate may vary and is subject to change.

The purpose of this grant is to assess: (1) implementation of student prematriculation and staff screening for tuberculosis (TB) infection; (2) attitudes

toward and barriers to implementing screening; (3) practices concerning preventive therapy and therapy for TB cases; and (4) the impact of TB control policies on college and university campuses.

The Public Health Service (PHS) is committed to achieving the health promotion and disease prevention objectives of "Healthy People 2000," a PHS-led national activity to reduce morbidity and mortality and improve the quality of life. This announcement is related to the priority areas of HIV Infection and Immunization and Infectious Diseases. (To order a copy of "Healthy People 2000," see the section **WHERE TO OBTAIN ADDITIONAL INFORMATION.**)

Authority

This grant is authorized under Sections 301(a) and 317(a) of the Public Health Service Act (42 U.S.C. 241 and 247b) as amended. Applicable program regulations are found in part 51 (b), subparts A, of Title 42, Code of Federal Regulations.

Smoke-Free Workplace

The PHS strongly encourages all grant recipients to provide a smoke-free workplace and to promote the non-use of all tobacco products, and Public Law 103-227, the Pro-Children Act of 1994, prohibits smoking in certain facilities that receive Federal funds in which education, library, day care, health care, and early childhood development services are provided to children.

Eligible Applicant

Assistance will only be provided to ACHA for this project. No other applications are solicited. The program announcement and application kit have been sent to ACHA.

ACHA is the most appropriate and qualified agency to provide the services specified under this program announcement because: ACHA is a voluntary, nonprofit organization representing over 850 colleges and universities in the United States, Canada, and internationally, as well as more than 2600 individual health professionals. ACHA's operations are national in scope and are implemented via six regions: New York/New England; Mid-Atlantic; South/Southwest; Mid-America; Rocky Mountain and Pacific Coast. ACHA promotes cooperative efforts among schools of higher education, shares knowledge on important college health issues and is a central resource for development of educational materials and programs concerning health policies for colleges and universities. Only ACHA has the

following characteristics that are essential to this study: (1) previous experience executing studies in colleges and the required methodology to do so; (2) the only national focus on the target audience for this study and a unique relationship with colleges which can enhance their interest and willingness to participate; and (3) a unique relationship with and access to college and university health programs that have been identified as the best and most reliable source for the information to be collected. No other multi-university consortium of student health programs exists with these features and such extensive experience in health related issues. Limiting eligibility to ACHA will also ensure the most timely and cost-effective start up and completion of the project. Therefore, ACHA is uniquely qualified, and the only eligible applicant for this study.

Executive Order 12372 Review

This application is not subject to review as governed by Executive Order 12372, Intergovernmental Review of Federal Programs.

Public Health System Reporting Requirements

This program is not subject to the Public Health System Reporting Requirements.

Catalog of Federal Domestic Assistance Number

The Catalog of Federal Domestic Assistance Number is 93.947, TB Demonstration, Research, Public and Professional Education Projects.

Other Requirements

Confidentiality

Applicants must have in place systems to ensure the confidentiality of patient records.

Human Subjects

If the proposed project involves research on human subjects, the applicant must comply with the Department of Health and Human Services' Regulations, 45 CFR part 46, regarding the protection of human subjects. Assurance must be provided to demonstrate that the project will be subject to initial and continuing review by an appropriate institutional review committee. The applicant will be responsible for providing assurance in accordance with the appropriate guidelines and form provided in the application kit.

Where to Obtain Additional Information

If you are interested in obtaining additional information regarding this project, please refer to Announcement 573 and contact Manuel Lambrinos, Grants Management Specialist, Grants Management Branch, Procurement and Grants Office, Centers for Disease Control and Prevention (CDC), 255 East Paces Ferry Road, NE., Room 300, Mailstop E-16, Atlanta, GA 30305, telephone (404) 842-6777.

Applicant may obtain a copy of "Healthy People 2000" (Full Report, Stock No. 017-001-00474-0) or "Healthy People 2000" (Summary Report, Stock No. 017-001-00473-1) referenced in the SUMMARY through the Superintendent of Documents, Government Printing Office, Washington, DC 20402-9325, telephone (202) 512-1800.

Dated: June 2, 1995.

Joseph R. Carter,

Acting Associate Director for Management and Operations, Centers for Disease Control and Prevention (CDC).

Cooperative Agreement Program With the Black College Satellite Network to Improve Interaction Between Public Health Practice Officials and Minority and Underserved Populations

Summary

The Centers for Disease Control and Prevention (CDC) announces a fiscal year (FY) 1995 cooperative agreement program with the Black College Satellite Network (BCSN) to assist them in developing a program to improve the interaction between public health practitioners and minority and underserved populations. One award for approximately \$50,000 will be awarded subject to the availability of FY 1995 funding. It is expected that the award will begin on or about September 29, 1995, and will be made for a 12-month budget period within a project period of up to five years. Funding estimates may vary and are subject to change. Continuation awards within the project period will be made on the basis of satisfactory progress and the availability of funds.

This award will assist the BCSN in the production and distribution of a series of satellite video conferences on the whole range of public health priority issues. This cooperative agreement will permit BCSN to enhance the preparation

of public health workers thus improving the interaction between public health practitioners and minority and underserved populations.

The CDC will: (1) provide technical assistance through telephone calls, correspondence, and site visits in the areas of video conference content development, production treatment, selection of faculty, and preparation of faculty; (2) provide technical assistance and consultation for agenda and proposed project activities; (3) assist in the reporting and dissemination of results of video conferences to appropriate Federal, State, and local agencies, academic institutions, and the general public; (4) participate in activities related to acquisition of downlink sites and coordinate sites with BCSN; and (5) coordinate the roles and responsibilities of the state distance learning coordinators.

The Public Health Service is committed to achieving the health promotion and disease prevention objectives of "Healthy People 2000," a PHS-led national activity to reduce morbidity and mortality and improve the quality of life. This announcement is related to all the priority areas of "Healthy People 2000." (For ordering a copy of "Healthy People 2000," see the section "Where to Obtain Additional Information.")

Authority

This program is authorized under section 301(a) of the Public Health Service Act, 42 U.S.C. 241(a), and the President's Executive Order 12876 of 1993.

Smoke-Free Workplace

PHS strongly encourages all grant recipients to provide a smoke-free workplace and to promote the non-use of all tobacco products, and Public Law 103-227, the Pro-Children Act of 1994, prohibits smoking in certain facilities that receive Federal funds in which education, library, day care, health care, and early childhood development services are provided to children.

Eligible Applicant

Assistance will be provided only to the Black College Satellite Network (BCSN). No other applications are solicited. The program announcement and application kit have been sent to the BCSN. The BCSN is the only organization with the capacity to perform the activities of this cooperative agreement. BCSN is the only minority organization that provides comprehensive telecommunications services to all Historically Black Colleges and Universities (HBCU's) in
